

# Finding Outfalls in the Surface Water Data Viewer

(Updated 9/07)

1. Load the viewer. <http://dnrmaps.wisconsin.gov/imf/imf.jsp?site=SurfaceWaterViewer>

2. Use your mouse to **draw a box** on the map to zoom in to your area of interest, or click the blue **Find Location** tab to zoom in to a particular water body, municipality, TRS, etc.

3. Click the gold **Layers** tab, then click on the **Permits and Related Data** folder. Then, click on the checkbox next to the **Surface Water Outfalls** layer. The outfalls will appear as brown triangles on the map.

4. Click on the **Identify** button above the map, then click on a triangle on the map to identify its attributes. (You may have to scroll down through the report to view the Outfall data.)

5. [Forthcoming enhancement: Click on the blue **Link to Monitoring Data** to view monitoring data associated with that particular outfall.]
